MINISTRY DEVELOPMENT CENTRE

To facilitate our growing ministry and vision to equip and empower pastors and leaders across the Dominican Republic and Haiti, we have prayerfully set in motion plans and timelines for the construction of our MINISTRY DEVELOPMENT CENTRE. Construction of the MDC, scheduled to begin Fall 2019, will happen on a 27-acre piece of property just outside of Nagua, on the North Coast of the Dominican Republic.

IMPACTFUL

The vision for the MINISTRY DEVELOPMENT CENTRE is to be a facility where local pastors, church leaders, seminary groups, short term teams and others can come to experience the presence of God, be trained and be refreshed.

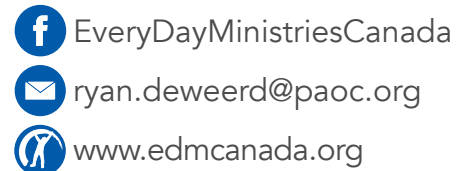

This facility will be used for biblical training, conferences, seminars and retreats for evangelical denominations across the island of Hispaniola.

SUSTAINABLE

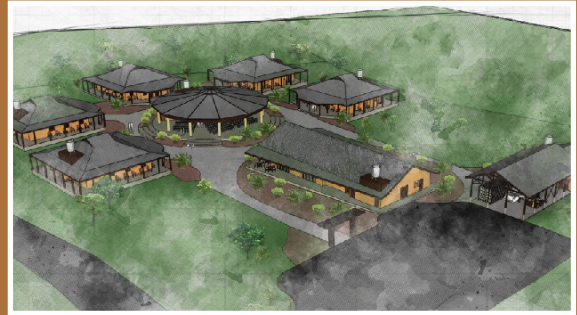

Once constructed, we anticipate that the DEVELOPMENT CENTRE will be sustainable and run with minimal to no injection of external funds by sustainable agriculture on the land that will (already has) generate income (*passion fruit, cocoa, coconut*) and solar and other smart energy solutions to minimize utility costs.

Completion of the MDC is slated for Fall of 2021.

To learn more or to contribute to the MINISTRY DEVELOPMENT CENTRE please contact us:

PHASE I

- 5 Dormitories for capacity up to 180 people
- 1 Multi-use building for meetings up to 250 people
 - Kitchen & dining facilities
 - Multi-function building for storage, laundry, donations and security
- Project infrastructure (*roads, lighting, electrical, water*)
 - Classrooms & offices
